W. J. YORE WILL CONTEST MRS. CANNING'S WILL.

Nephew Says He Was Prevented From Seeing His Aunt—Father M'Sweeney Makes a Statement.

W. J. Yore, nephew of the late Mrs. Mary Canning, threatens to enter a contest to the will of his deceased aunt when it is presented for probate in the Superior Court. Mr. Yore feels that he has not been properly provided for in the will.

LEAVES LARGE ESTATE.

Mrs. Canning leaves an estate valued in the neighborhood of \$500,000. Her nearest of kin is Mr. Yore, her nephew, and Mrs. Nellie Davitt, wife of Michael Davitt, the Irish patriot, and sister of Mr. Yore.

For years it has been thought that Mrs. Canning would leave the bulk of her estate to her niece and nephew. Recent events show, however, that she was estranged from Mr. Yore and she has not seen Mrs. Davitt for years, the latter residing with her husband in Ireland.

Mr. Yore is ready to prepare charges in case he finds that he has been neglected in his aunt's will.

Already he has been around trying to ascertain the contents of the last testament left by his aunt.

In this respect, however, he has not been successful, for the will will not be made public until after Mrs. Canning's funeral, which takes place from St. Francis de Sales Church tomorrow morning at 10 o'clock.

REMEMBERS SISTERS.

There is a great deal of speculation as to Mrs. Canning's disposition of her large estate.

It is understood that she has left a large sum of money for the benefit of St. Francis de Sales Church, and also to the Sisters of Providence, who have just erected a large hospital on New Broadway and Twenty-sixth street.

For some years Mrs. Canning has been an invalid and recently she has been cared for by the Sisters of Providence at their temporary hospital at 403 Twenty-sixth street. It was at this place that she died.

DREW UP THE WILL.

It is stated that Garrett McEnery, the well known attorney of San Francisco, drew up Mrs. Canning's will some time ago and that the document was very carefully prepared.

YORE'S COMPLAINT.

Mr. Yore's story, however, is best told in his own words.

"It is true," said Mr. Yore to a TRIB-

W. J. YORE.

UNE reporter, "that there was an estrangement between my aunt and myself. I have not been able to find out anything about her will, and I don't suppose it will be opened until after the funeral."

"I was not permitted to see my aunt during her last illness and therefore I am in the dark concerning her business affairs. I will say, however, that I do not feel that I have been treated justly in many matters."

SHE WAS PREJUDICED.

"My aunt has been prejudiced against me for several years and I was not allowed to go to her to make my peace with her."

"One of the causes for my break

with my aunt was that I objected to her signing a contract for Father McSweeney to sell the Canning block at Thirteenth and Broadway. I believe he had a purchaser for \$260,000. The Canning block brought in an income of \$22,000 a year. Property in San Francisco that only brought an income of \$20,000 a year sold for \$400,000. Mrs. Canning did not sign the contract at that time, and I do not think that Father McSweeney liked it. Subsequently, the price was raised \$15,000 and the contract of sale was signed."

"I think that the matter of prejudicing my aunt against me lies with those in high church circles across the bay."

"I cannot tell what move I will make until I see the will."

THE MARRIAGE.

It is stated by the friends of Mrs. Canning that Father McSweeney had done everything in his power to bring about harmony in the Canning family and that whatever he has done, was for the best interests of the Canning family.

One of the causes of the trouble between Mr. Yore and his aunt was the nephew's marriage to a domestic.

The marriage was kept a secret from Mrs. Canning for some time and when she learned of it she said that she had been deceived by her nephew and that she did not desire to have any more to do with him.

She heartily disapproved of his marriage and in fact never forgave him for not consulting her concerning the wedding.

FATHER M'SWEENEY.

Rev. Father McSweeney was given the substance of the rumor in circulation, today, by a TRIBUNE reporter, and expressed, at first, a desire to say nothing in the premises, but at length, feeling that his silence might be misconstrued, made the following statement:

"If there is to be a contest of the will of Mrs. Canning, which seems to me rather improbable, it cannot justly be based upon the grounds you allege."

TELLS OF RIGHTS OF CAPITAL.

Judge Grosscup Takes Issue With Labor Unions.

Remarkable Address Is Made By a Federal Official in East.

SPRINGFIELD, Ill., January 27.—The prominent speaker at the meeting of the Illinois County and Probate Judges today was Judge Grosscup of the United States Circuit Court at Chicago. His subject was "The next great step in American politics, the re-peopling of our country's industries."

After expressing his confidence in the continuance of prosperity and his friendliness to honest corporations as "Civilization's way of wielding large masses of capital," and his friendliness to law-abiding labor unions as "The embodiment in organization of the national law of self-preservation," the speaker sketched the present conditions and complaints of employers, employees and the general public and upon the relations of employers and employees said:

"It has come to pass that instead of peace the standing relations between them is that of war. They look upon each other, not as neighbors or co-partners, but as belligerents. When they sleep it is upon their arms. When a truce comes and industry is laid, it falls, not on the belligerents, but on the outside public—the great neutral who up to that time supposed it had only a moral interest in the conflict."

RUSSIA GOES SLOW.

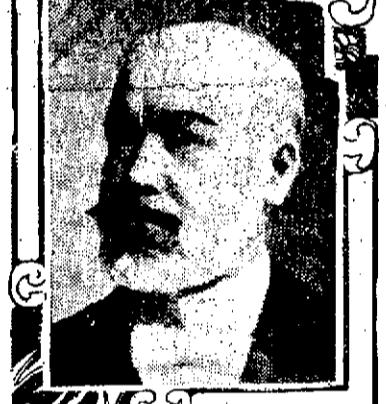

Calls in Japanese Minister to Talk Over Affairs.

Answer to the Mikado Is Being Carefully Prepared.

PARIS, January 27.—Official advice received here from St. Petersburg show that Foreign Minister Lansdorff, before giving Russia's answer, has called in the Japanese Minister, M. Kurino.

The two Ministers are now conferring with a view of so shaping the response as to avoid a conflict.

This is considered to be an explana-

tion of the dispatch from Tokio saying Japan has requested Russia to hasten her reply.

As Count Lansdorff and M. Kurino are having conferences prior to the submission of the reply, it is regarded as evidence of Japan's insistence on an early answer and of Russia's desire to avoid a response which might precipitate hostilities.

Count Lansdorff's course in conferring with M. Kurino before answering is cited as showing Russia's willingness to go to the last limit in order to avoid war. But, it is added, if the efforts of Russia fail she will be prepared to strike very hard blows from the outset.

All information reaching the highest quarters here tends to show that the crisis continues acute. It appears to be the accepted conviction in government circles that the final determination between peace and war cannot be long deferred.

The officials continue to hope for peace, but they make the reservation that the discouraging aspect which the situation assumed during the last few days has not been ameliorated.

A categorical denial is given so far as France is concerned to the Peking report that the French Minister is taking part in the negotiations with the view of mediation of France, Great Britain and the United States.

TOPEKA, Kansas, January 27.—It is understood that the Cabinet, assisted by the elder statesmen, has completed a financial program which, it is anticipated, will be published shortly. Congressman Declares Morgan is a Gold Brick Man.

Republican Party Stands for the Welfare of the People.

WASHINGTON, Jan. 27.—The House went into Committee of the Whole on the urgent deficiency bill. Mr. Burkett of Nebraska, speaking on party issues, said the Democrats would not know whether they will talk free silver or the gold standard until after their Convention at St. Louis and they learn who is to control the party—the gentleman from Nebraska or the re-organizers. Asked how much of the \$500,000 had been expended by Democrats for that purpose.

Mr. Lansdorff of Indiana remarked that it was \$25,000 more than had ever been expended by Democrats for that purpose.

The paramount issue of the Republican party, declared Mr. Burkett, is and always has been, the development of the country and the welfare of the people.

Mr. Coyle, of Missouri, replying to Mr. Burkett, paid his respects to J. Florio Morgan. The financial policy inaugurated by President Cleveland, he said, emanated from no political party, but from a coterie of gentlemen who then and since then had been the advisers of

SAD SAM REFUSED TO WIN LAST RACE.

Jane Holly, At 8 to 1, Beats the Heavily Played Favorite to the Wire.

The public had a fierce encounter with the bookmakers on the last race of the day at Emeryville yesterday afternoon and came out second best. The cause of all their trouble was one, Sad Sam, who was attacked with a fit of sulks during the last furlong of the race, and tossed it away after entering the stretch four lengths in the lead.

With Double Six scratched, the race looked like a gift to Sad Sam, and when the horse opened up to 4 to 5, big bunches of coin rolled into the ring on the favorite. The bookies could not stand the pressure and by post time 13 to 20 was the best obtainable on the horse. E. M. Brattain and Mocerito were equal second choices at 6 to 1, and Jane Holly went betting at 8 to 1.

As usual, Sad Sam beat the gate and by the time the half mile post was reached he had a clear four and a half lengths.

At the three-quarter pole the last horse reached the five lengths when four full lengths separated him from the field at the head of the stretch. It looked to be all over, but Sad Sam began to quit when opposite the saddling paddock and wanted to go to the stable. Jockey Sherwood coaxed and beat him all to no avail and Jane Holly, well ridden by Hildebrand, came from nowhere in the rear and beat Sad Sam by three-quarters of a length.

The first race was easy picking for the talent. They put their money on My Surprise and received it back with handsome bonuses at the rate of 12 to 5. Flyer ran an excellent race and was only beaten by the favorite by a neck. Puss in Boots was third.

Six starters faced the barrier in the third race and the talents picked "The Cur" to win. Plenty of money went into the ring on the horse to win at from even money of 7 to 5, but Larson, who had the leg up, rode like a clown at a circus and was lucky to be inside the money. Atwood was the winner and he was ridden out all the way. Nine to two was laid against Atwood, and a few who liked the horse, cashed their tickets, but the majority had the pleasure of tearing theirs up.

Nullah, at the good long price of 9 to 1, captured the third event of the day, which was a sprint over the furlong course. Rollie was thought to be the best and was consequently well played at 8 to 5, but he never had even a look in and finished among the also ran. Ulster took the lead for the first part of the journey and for a while looked to be the winner. In the last few strides Nullah came with a rush and beat the Northern horse out by nearly a length.

There was some semblance to class among the starters in the mile and a sixteenth purse run, and it furnished the prettiest contest of the afternoon. The race had most open look, and when Stuve finally closed favorite there was plenty of 18 to 5. Ben MacDhul, the opening choice, receded from 2 to 5. Tommy Burns, with Jockey

The Yaeger-Lauferman stable combination did not think that June Holly deserved to be Sad Sam, and two members of the confectionery are said to have bet on the favorite.

Master Cal was 2000 to 1 in the last race, and Hildebrand rode the first and last winner. Riesca was backed down from 30 to 1 ages.

THE HUMAN MECHANISM.

The womanly system is a delicate machine which can only be compared to the intricate mechanism of a beautiful watch which will keep in good running order only with good care and the proper oiling at the right time, so that the delicate mechanism may not be worn out. Very many times young women get old or run down before their time through ignorance and improper handling of this human mechanism.

Mental depression, a confused head, backache, headache, and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women: The correctness of this advice is amply proven by the experience of many thousands of women—a large number of whom have written of their experiences.

DEFINITION OF A KNOCKOUT.

DIFFERENCE OF OPINION AS TO MEANING OF WORD.

The question of what constitutes a knockout is one regarding which there is some difference of opinion. Whenever a referee stops a bout because he decides that one of the men is receiving useless punishment, having no chance of victory, the newspapers receive many queries asking whether or not the vanquished should be considered defeated by a knockout.

The Hanlon—"Young Corbett" fight brought up a case of this kind. Referee Grancy interfering in the sixteenth round, Hanlon was not unconscious when prevented from continuing, but the maff still got so record as a knockout for Corbett.

Many fight authorities contend that a man is knocked out when he falls to get to his feet within the ten seconds after being floored, no matter if he is not unconscious, but others hold that he is not knocked out unless he is actually "put to sleep."

Not long ago Brooklyn Jimmy Carroll, a former pugilist, was talking about knockouts. In Carroll's opinion it is not necessary for a man to be on the floor and take the count to be knocked out.

He has known many fighters to be knocked out standing," said Carroll. "About fifteen years ago, in India, a fellow named Brennan met another pugilist known as Flynn. The scrap was even until the fourth. In the fifth, though, Brennan rushed and swung a hard right-hand to his opponent's jaw. Suddenly at the end of his count, Flynn began to sing and dance. He did not know where he was, and when the referee declared the fight against him and touched him on the shoulder, he said: 'Take your partner for a waltz.' Yet Flynn was knocked out and standing up at that.

A man who refuses to get up when knocked out if the referee stops a battle is a welcher, pure and simple. I've seen fighters deliberately quit in a ring by lying down and feigning a knockout. Yet it is unjust to say so because when a man does that, it is a sign of weakness, and refuses to get up when the punch is a hard one, whether the punch is a hard one or not.

It is different, however, if a man in the possession of all his senses says that he has had enough and refuses to go on with the match. Life is thin in the true sense of the word. But in cases such as the late Hanlon-Corbett encounter, he says, Hanlon was knocked out, his bones broken, and nine cases out of ten say that the battle terminated with a knockout."

QUITE NATURALLY THE INTEREST IS CENTERED, CHIEFLY IN THE MAIN EVENT IN WHICH JACK CORDELL, THE CLEVER BOY FROM THE HAYES VALLEY CLUB OF SAN FRANCISCO, WILL GO AGAINST SEIGER, THE "IRON MAN" WHO HAIL FROM NEW JERSEY.

SEIGER IS THE VETERAN OF MANY A HARD-FOUGHT BATTLE WHILE CORDELL IS BUT IN THE THRESHOLD OF HIS CAREER, CONSEQUENTLY THE ITALIAN WILL HAVE A DECIDED ADVANTAGE IN THE MATTER OF EXPERIENCE, BUT THIS WILL BE OVERCOME BY THE SPEED AND SCIENCE OF THE BOY FROM ACROSS THE BAY.

CHARTER ARRIVES.

Last night the new charter for the Alameda County Branch, No. 1, of Cement Workers arrived. The new charter is from the American Brotherhood of Cement Workers and is international. The union will now be known as the American Brotherhood of Cement Workers No. 19.

The union had four applications for membership. Two new members, M. Hulon and P. Beckman, were initiated. L. Matson, vice president of the union, remained from the office.

W. H. Leonard addressed the union on the conditions existing in Colorado through the strike of the Western Federation of Miners for an eight-hour work day. Mr. Leonard with his forcible way of speaking created a favorable impression.

In the course of his remarks he said that "men are arrested without cause. They are thrown into a 'hot pen' which is a prison would be an insult to the civilization found in China today. Men against whom no charge has been preferred are seized and thrown into prison."

"Remember," urged the speaker, "men against whom there is no charge. Proof of this is given in the case of Sherman Parker, who was arrested and released by the city authorities; then arrested and held, but when his attorney appealed to the Supreme Court, Governor Peabody, rather than face an adverse decision, pardoned him."

"Scarcely had he left the prison when the military authorities seized him and again cast him in prison."

The appeal to the Supreme Court was taken shortly after that and the court ordered his release. The military authorities followed the instructions of the court to the extent of allowing Parker to walk a block from

WORK ON THE TRANSIT ROADS JURORS FILE PROTEST TO NAMED.

COMPANY PLANS A NUMBER OF IMPROVEMENTS ON ITS LINES.

The Oakland Transit Company and the Key route system have definitely settled upon two important projects which will be put in operation at once. The first is the building of an extension of the University-avenue system in Berkeley from the present terminus at San Pablo avenue to the waterfront along University avenue. This work will be commenced within a week or two.

The second piece of work will be the connecting of the Forty-ninth-street line from its present terminus, a little east of Telegraph avenue, with the Piedmont line. This will be commenced at once. As the road is already built nearly to Broadway, it is now only necessary to make the connection between Broadway and Piedmont avenue. There is a considerable hill at this point and the original plan of the company was to mount the hill on a regular street. As this would be a difficult undertaking, a private right of way was purchased, and instead of a tunnel, which was intended to have been built, a deep cut will be made to overcome this hill.

No other work will be commenced by the company until the rainy season is over.

The Oakland Transit Company's lines in East Oakland are all narrow gauge and in a poor condition. However, no permanent repairs will be made as the company intends to have all its tracks made broad gauge.

In explanation of the application for a franchise along the eastern bank of Lake Merritt and connecting with the main line of the Twelfth-street system at the dam, the railway officials say that it was merely an effort to secure a new outlet for the Fourth-avenue line, which at present connects with the Fifth-avenue system at East Eighth street. It is now to be run over a private right of way to connect with the main Twelfth-street system, at about First avenue and the eastern end of the Lake Merritt dam. No work will be commenced upon this until spring when all the East Oakland lines will be reconstructed.

BRITISH JUSTICE DISCREDITED.

The conviction of Whitaker Wright is no credit to British justice. There is scarcely a doubt that Wright did practice deception in his financial promoting, but he did no more than others have been doing for many years with impunity. It is not that he was innocent of culpability, but that the manner and motive of his prosecution are discreditable to the impartiality of British criminal administration and revolting to the sense of justice. Wright's associates and complices in high aristocratic and political circles were carefully shielded while a stern example was made of the adventurer who was stigmatized as "an American" for the occasion. Political pressure caused his prosecution, and he was singled out for sacrifice as a political necessity. The trial judge deported himself like a prosecutor and his charge to the jury was an argument for conviction. This is permissible under English law, but it was none the less unfair and invidious. Then the extreme penalty of the law was exacted. All the while the titled "guinea pigs" who had lent themselves willingly to Wright's schemes and fattened on the profits of his operations were protected. The Crown prosecutors, who are simply the agents of the ministry, devoted their energies on one hand to convict Wright and to shield his associates on the other. Every resource of the machinery of the law was strained to its utmost to insure a conviction because the government is facing a crisis. The whole business was contrary to every principle of justice and every dictate of fair play. Wholesome respect for the law is not promoted by a discriminating prosecution undertaken to silence popular clamor for political reasons, and a trial conducted unfairly by a persecuting judge. There is no appeal from the judgment of a criminal court in England, but Wright appealed to the judgment of mankind by committing suicide immediately after his conviction.

In the first place, Russia has a national debt of \$3,400,000. This is not such a large amount compared to the debts of France and England, but Russia is relatively a poor country with an ignorant, unenterprising population, mainly engaged in agriculture of a primitive kind. Mr. Kennan draws a deplorable picture of the hopeless poverty of the great central province of Russia. He says the imperial policy of aggression and conquest is pursued by draining the life blood from the vitals of the empire. The inhabitants are increasing in number, while the fertility of the soil and number of farm animals are decreasing. In other words, each acre has an increasing number of people to support, and a steadily decreasing productive capacity to meet the rising burden. Nearly one-half the value of the salable crops goes for taxes. The peasants are falling year by year into deeper arrears. They are parting with their land holdings, and selling off their farm animals. Their condition of hopeless poverty is growing more and more acute; the stagnation and desituation more intense. The government is swatting the land and its people out of everything that can be wrung from them.

If this be a true picture of the agricultural industry, which employs an average of 56 per cent of the inhabitants of Russia proper, it is clear that the Moscovite empire could not long carry on war on an extended scale. No refined circle is without its Catholic members, no financial enterprise without Catholic participants, no public movement without Catholic co-adjudicators. From the first the Church has contained an aristocratic native element composed of Catholics from Kentucky, Maryland, Louisiana and New York, and the old Spanish families indigenous to the soil and devoted to the communion of St. Peter, and this element gave the Church prestige and influence when they were most needed.

The history of Catholicism in California is interesting as a study of religious development, but to the Protestant mind it is still more interesting as a study of the workings of that profound policy which excited Lord Macaulay's deepest admiration, and to whose enduring quality he gave such eloquent testimony.

Senator Burton, who has been indicted for taking bribes, announces that he will fight the case through on its merits. He declares that a judicial investigation will prove him guiltless. We hope so; but we trust there will be no dodging the issue, as in the case of Senator Dietrich. Dietrich virtuously asserted his innocence and demanded a speedy trial. When he got it, he did not attempt to disprove the charge that he accepted a bribe to secure a postoffice appointment for a constituent, but denied the court's jurisdiction on the ground that he had not been sworn in as a Senator at the time of receiving the alleged bribe. Senator Burton is accused of taking money from a St. Louis get-rich-quick concern in return for using his influence with the Postal Department to prevent the advertising literature of said concern being excluded from the mails. He admits taking the money, but says it was paid to him as attorney fees. The distinction appears to be a rather fine one. If Senator Burton were a layman the money he got would be undoubtedly called a bribe. A lawyer's license is a handy thing to have, it seems, in certain contingencies.

The committee clerk of Congressman Gillette, of the First District, who is engaged in boasting his patron in the columns of the *Eureka Californian*, would do well not to mix his taffy with disparaging comments on Congressman Metcalf. That cook won't fight. Those little games are too well understood nowadays to deceive anybody save the most unsophisticated. Mr. Gillette had better call his dog off.

RUSSIA'S FINANCIAL WEAKNESS.

Russia embraces 9,000,000 square miles of territory and contains 128,000,000 inhabitants. These stupendous figures color all our estimates of the relative fighting strength of Japan and the Moscovite empire. Looking at them, one is apt to conclude that the little island empire with its 42,000,000 inhabitants will altogether be overmatched, both as to resources and fighting strengths in the field, in a combat with her overgrown and aggressive neighbor.

But George Kennan, who is familiar with internal conditions in Russia and is besides student of Russian policy, does not take that view of the case. In an article in the *Outlook*, Mr. Kennan says Russia is in no position to stand the drain of a protracted and expensive war. And a war with Japan would necessarily be expensive, enormously expensive. It would cost Russia vastly more than it would Japan on account of the great distance of the seat of war from her base of supplies. But this is not the phase of the matter to which Mr. Kennan addresses himself.

In the first place, Russia has a national debt of \$3,400,000. This is not such a large amount compared to the debts of France and England, but Russia is relatively a poor country with an ignorant, unenterprising population, mainly engaged in agriculture of a primitive kind. In view of the undue proportion of sick would entail heavy expense for increased hospital service. The internal weakness would thus become intensified by the extraordinary drain of men and money.

There was a time when Russia could keep large armies in the field within her own territory or adjacent to her frontiers, but that time is past. Modern armies and ammunition are expensive and must be paid for in cash. The supplies for armies operating in distant fields will have to be purchased with ready coin. The Czar's soldiers cannot subsist on the country, and when they once get to fighting the only way to get supplies and reinforcements is by the long line of railway which stretches from Moscow across Siberia to Vladivostock. The cost and difficulty will be incalculable.

Our rare and radiant contemporary, Skipio Craigie, of the Redlands Cigraph (San Berdoon County), who has a billy goat's predilection for butting in, says he sees no reason why Alameda, Berkeley and Fruitvale should consolidate with Oakland. There are many things Skipio cannot see—his ears, for instance. Because nature has denied him the ecstatic privilege of seeing the length and breadth of his ears in all the magnificence of their proportions, is no reason why his valuable opinion as to municipal consolidation in Alameda county is to be marked as over-weight. Skipio shouldn't do so much skipping around.

BERKELEY, Jan. 27.—By removing a piece of glass in the Mining Building at the University of California, a thief entered the building last Monday evening and stole an assayer's balance valued at about \$80.

The assay laboratory is located on the northwest side of the Mining Building. In this laboratory are kept several balances of the same type. The thief gained his entrance to the laboratory through a room in the rear by taking out a small piece of glass in a window which had previously been cracked. This crack was just over the window catch and as soon as the piece of glass was removed the catch could be turned and the window raised easily. After entering this room it was necessary to climb up a ladder to the balance room a few feet to the front, all the doors being unlocked.

The balance, box and hood were taken. It was not large and could easily be carried under a man's arm. Up to the present time there is no clue as to who committed the crime.

THE SCRIBBLER.

A few enterprising pupils of the Latin grammar school have started the publication of an interesting booklet entitled "The Scribbler." This little book is to be devoted to fiction, humorous paragraphs, current events and personal notes. It is edited by Alexander Ogden and the manager is Ogden, 175 Alice street. The subscription rates are 25 cents a year. For advertising rates see Robert C. Ogden, 175 Alice street.

BERKELEY, Jan. 27.—Although the charge against the defendant is simply one of disturbing the peace, the witness on the stand to prove that the peace of the neighborhood had not been disturbed but District Attorney Walsh objected to the testimony and was sustained by the court. When the Fisher witnesses were called to testify as to his good character, a lively tilt took place between Attorney Walsh and Fisher. The latter became so angered that he finally leaned over to make a remark to Walsh.

Walsh then said to the court: "Your honor please, object to the conduct of this defendant. He has threatened to crack me in the jaw. I am not afraid of him but it is unpleasant to be interrupted."

At this point Fisher became so indignant that he rose against the advice of his attorneys and delivered the following words to the court:

"This man has insulted me and accused me of bribery."

Fisher was stopped by Judge Edgar who told him that the prosecuting officer had not exceeded his authority and that his attorneys would do his talking in court.

At 10:30 o'clock the court adjourned until 7 o'clock this evening.

PROF. GAYLEY WRITES A MIRACLE PLAY.

BERKELEY, Jan. 27.—The news has been received here that a miracle play, written by Professor Charles Miller Gayley of the University of California, was presented for the first time in Boston yesterday. Its title is "The Star of Bethlehem," and its action is founded on the Bible story, dealing with the nativity, the passion and the resurrection. The gospel narrative is closely followed and the entire play is marked by its simplicity.

The play has other local interest, the author of authorship having been presented by a company under the direction of Ben Greet, who so successfully gave "Everyman" and "Twelfth Night" at the University last summer.

Hendricks is a member of the Phi Delta Theta fraternity, while Neighbor

gave the final testimony for the prosecution.

Here the attorneys for the defense made a motion that the jury be directed to acquit the defendant on the ground that the charge was defective in that it alleged the defendant disturbed the peace and quiet of the neighborhood. The contention was that the people who had testified were not neighbors and did not live in the vil-

cinity. The objection was overruled. The defense then endeavored to show that the peace of the neighborhood had not been disturbed but District Attorney Walsh objected to the testimony and was sustained by the court. RHEUMATISM

WRECKS THE NERVES AND UNDERMINES THE HEALTH

Rheumatism is not only the most painful, but oftentimes the most formidable and dangerous of all diseases. The constitution gives way, nerves are wrecked, health undermined and life made a misery and torture by the terrible pains and aches. Rheumatism is bad enough, even in its lightest form; but when it becomes chronic and the muscles and sinews grow hard and stiff and the joints immovable and fixed, it shows what the disease can do, and the far-reaching effects of this most terrible of all human maladies. Rheumatism is caused by uric, lactic and other acid particles in the blood, and every muscle, joint and fibre that these acid poisons touch become inflamed and sore, tender and painful. These acids cause fermentation in the blood, rendering it sour and unfit for the proper nourishment of the body. The nervous system breaks down for lack of rich, pure blood; the skin becomes red, swollen, feverish and puffy; the disease is aggravated and the pain intensified by every movement of muscle or joint, and there is no rest or ease for the almost frantic sufferer as long as the blood remains in this abnormal and unnatural condition. When Rheumatism is in the blood and system you may expect all sorts of complications. The heart-muscles often are affected, causing irregularity and weakness of this vital organ. The liver and kidneys act slowly, the stomach, digestion and appetite fail, all because of a too acid, sour and unhealthy blood. Exposure to cold and wet, night air, damp, foggy weather and chilly east winds, make Rheumatism worse and are exciting causes, but the real source of the disease is in the blood. Arteries and veins are fired with the poisonous acids, and exposure is the match that sets the whole circulation afame and brings out all the distressing symptoms of Rheumatism.

Home remedies, such as liniments, blisters and plasters, have a place in the treatment of Rheumatism in certain stages. When properly applied they relieve temporarily the pain and redness, the inflammation and swelling; but you can never reach the real seat of the disease from without; the cure must come from within, and it requires a remedy that can bring the blood back to its original purity, that can relieve the circulation of all irritating acids and stimulate the sluggish organs and all parts of the system before a permanent cure of Rheumatism is effected. S. S. S. acts as a purifier of the blood, toning up the nervous system; it neutralizes and filters out of the blood the acids and poisons and restores it to a pure and healthy state, and arouses all the bodily organs to better action and the waste and refuse that has been collecting in the system is promptly carried off through the natural channels; and the cause of Rheumatism being removed, the pains and aches stop.

S. S. S. contains no mercury, potash, opiates, alkalies or other harmful drugs, but is a guaranteed strictly vegetable compound. Where the nerves have been wrecked and the health undermined, S. S. S. will be found the ideal remedy, as it enriches and invigorates the thin, acid blood, and at the same time builds up the debilitated system. Until the blood has been thoroughly cleansed and purified there is no permanent relief from the tortures of Rheumatism. Write for our special book on Rheumatism, containing much information which every sufferer will find interesting and useful. If in need of medical advice, our physicians will gladly furnish it without charge.

SSS DIVIDING LABOR IN LIBRARY.

WATCHES TO BE SHORTENED
AND EMPLOYEES WILL BE
CHANGED ABOUT.

The directors of the Public Library Board intend making some changes in the manner of conducting the Central Reading-room. Heretofore the curator in charge opened that department at 9 o'clock in the morning and closed it at the same hour at night. After closing he performed the janitor work and kept the place in a cleanly condition.

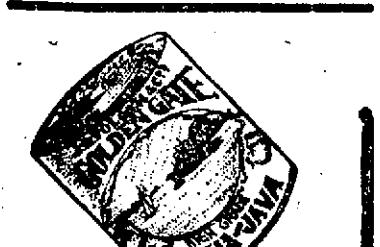

Director Evans says that he favors the division of the day into two watches of about six hours each, and the employment of another janitor who will divide up the work of cleaning the building with the present janitor. He says there are other members of the Board who entertain the same views.

There are now two curators in the children's room and one of them, it is likely, will be employed to take charge of the Central Reading-room during the morning and the early hours in the afternoon when there are not many patrons in the children's room. When her services are required among the children she will be succeeded in the reading-room by the permanent curator here who is yet to be elected. The new curator will not be expected to do janitor work as that will become part of the duty of the janitors yet to be chosen.

The intention of the management is to utilize the employees of the Board in whatever department they may be of service.

COMMITTEE IS NAMED.

MERCHANTS' EXCHANGE AN-
NOUNCES PERSONS TO LOOK
INTO PLEAS FOR AID.

An endorsement committee for all public charities, consisting of members of the Board of Trade, Merchants' Exchange, charity organizations and a member at large, was announced at a meeting of the Merchants' Exchange last night. The object of such a society, it was explained, is to look into the various pleas made to the public for charities and see if they are deserving. It is proposed that only such charities as have the endorsement of the committee will be recommended to the public. The committee announced was H. C. Capwell and J. B. Richardson of the Board of Trade; Directors Jonas and Brown of the Merchants' Exchange, and J. B. Isaacs and Miss Catherine Felton for the Charity Organization Society. These six had chosen the Rev. C. H. Brown as a seventh member.

Sidney, Ohio, Aug. 26, 1903.

A few months ago I was feeling weak and run-down and unable to sleep at night. I felt extremely bad and also had rheumatic pains in my joints and muscles. The doctors' medicines only gave me temporary relief at best; so seeing S. S. S. highly recommended for such troubles, I began its use, and after taking it for some time was well pleased with the results. It did away with the rheumatic pains, gave me refreshing sleep and built up my general system, giving me strength and energy. It is a good medicine, without a doubt, and I take pleasure in recommending it.

S. S. BOUGHTON.

The appointment of the committee to co-operate with the State Board of Trade was made as follows: Directors Capwell, Arper and Brian. The work of this committee will be to get the proper reading matter and photographs for advertising Alameda County.

Director Arper reported the passage of the automobile ordinance at the meeting of the Board of Supervisors last Monday, an account of which has appeared in THE TRIBUNE.

Chairman Gier announced that the members of the Exchange had invited to inspect the County Auditorium next Friday. It was unanimously agreed by the members that the members would avail themselves of the privilege of seeing how the county money is spent there.

The appointment of the committee to the Board of Supervisors last Monday, an account of which has appeared in THE TRIBUNE.

The proposed ordinance regulating the obstruction of sidewalks came up for discussion and Secretary Walker called attention to the workings of a similar ordinance in San Francisco. He reported that all of the obstructions on sidewalks here in Oakland had been removed except in the instance of a form of building ordinance used in San Francisco was read and commented upon. The proposed difference was in providing that a covered passage should be provided where the building is over sixty-five feet high. In other respects the Oakland ordinance is good if enforced.

A resolution was framed and read to have a committee of three appointed to confer with the Pacific Underwriters' Association and obtain the use of tarpaulins for covering property where there is a fire in which damage from water is liable to result. Fire Chief Bell said to a member of the Exchange that he had tried to obtain such cover, but had failed to get them. The resolution was passed by Director Walker, and a protracted discussion as to the interests of the Underwriters, and why they should not provide the covers at their own expense.

The matter was disposed of by voting that W. H. Wellbye is appointed to take the matter up with the association and report at the next meeting.

The matter of trees along Telegraph

avenue was called up and the sense of the Exchange was strong in favor of the palms as against the classic elm.

The Telegraph Avenue Committee

was authorized to take the matter up and convey to the property owners the sense of the Exchange.

STUART'S DYSPEPSIA TABLETS.

Food Eaten is Worthless Unless Di-

gested—Some Stomachs Must

Have Help.

Food taken into the stomach which

from the nature of the food or the

condition of the stomach, is not di-

gested, is worse than no food at all.

This is a true statement as far as it

goes and a great many dyspeptics go

only this far in reasoning. They ar-

gue with themselves that because their

stomachs do not do the work given

them, they must be given less work

in other words they must be starved.

It would be just as sensible for a busi-

ness man who is unable to do all his

own work to cut down his business to

his own capacity as it is for a man to

starve himself to relieve his stomach.

The sensible business man en-

joys help and goes forward with his

business. Likewise the sensible dys-

peptic will employ help for his

stomach and give his body proper

nourishment.

Stuart's Dyspepsia Tablets actually

do the work assigned to them. They

relieve weak and overburdened stom-

achs of a great portion of digestive

action. Their component parts are

identical with those of the digestive

fluids and secretions of the stomach

and they simply take up the grind and

carry on the work just the same as a

good, strong, healthy stomach would

do it.

On this account Stuart's Dyspepsia

Tablets are perfectly natural in their

action and effects. They do not cause

any unnatural or violent disturbance

in the stomach or bowels. Then the

stomach digests the food and supplies

the system with the nourishment it

contains in what is eaten and carry out Nature's

plans for the sustenance and main-

tenance of the body.

How much more sensible is this

method than that employed by many

sufferers from weak stomachs. By

this means the body and brain get all

the good, nutritious food they need

and the man is properly nourished and

equipped to carry on his work and per-

form his duties. He could not possi-

bly be in proper working condition by

starving himself or employing some

new fangled, insufficient food that does

not contain enough nutriment for a

year-old baby. A strong man doing

work must be properly fed and this ap-

pplies to the brain as well as to the

body.

Stuart's Dyspepsia Tablets, by re-

lieving the stomach of its work, enable

it to recuperate and regain its normal

health and strength. Nature repairs

the worn and wasted tissues just as

she does and knits the bone of a

broken limb, which is of course not

used during the process of repair.

Stuart's Dyspepsia Tablets are for

sale by all druggists at 50 cents a box

and they are the one article that the

druggist does not try to sell something

in the place of that's just as good.

Their unqualified merit and success

and the universal demand for them has

placed them within the reach of every-

one.

Tomorrow night the Alameda Lustspiel Ensemble, which is German for the Alameda County Association, which includes several Oakland ladies and gentlemen, will present in the Macdonough Theatre the humorous play, "The Wicked Uncle," which in English means "As I Returned." The play is a sequel to "The White Horse Tavern," which the same company played in the Macdonough Theatre some time ago with much pronounced success. In it are introduced

the same characters but in different situations, all of which are of the most amusing character.

The ladies and gentlemen composing this organization, which claim to be skilled in the presentation of German comedy, so much so I need that their work has been pronounced superior even that of professionals. They produced the same piece in the Columbia Theatre last Saturday night before a large and enthusiastic audience and not with unbound admiration.

The cast of the performance The Call of that city said:

"Throughout the performance the big audience was kept in a alternation of big giggles and guffaws, and the finish of each act was followed by a clapping that brought the leading people before the curtain to receive the applause.

CHINESE ANNOYS GIRLS.

THEY ARE COMPELLED TO SEEK REFUGE IN A BERKELEY HOME.

ORIENTAL ESCAPES.

Although an effort was immediately made to apprehend the Chinaman he made his escape.

MISS KNOWLES FRIGHTENED.

"We paid no heed to the maturings addressed to us by the Chinaman yesterday," said Miss Knowles. "But when he repeated his advances this morning we became thoroughly alarmed and ran as fast as possible with the man after us into Mr. Percival's home. We were on our way to the McKinley School at the time of the incident."

The vicinity where the girls were annoyed is in one of the most exclusive residence sections of the city and a close watch is now being kept for the return of the fellow.

"We will go hard with the Chinaman if we ever lay our hands on him," said R. A. Percival in discussing the Oriental's actions. "As for myself, I would shoot the man on mercy if I were to catch him in the act of chasing the girls."

WERE PURSUED BEFORE.

The Chinaman made advances toward the two girls yesterday morning, but they paid little attention to him, remarking and hurried on their way to school. They first saw the Celestial yesterday morning shortly before 4 o'clock, on Channing way, near Fulton street. Hurrying on the girls escaped the Chinaman, who started to follow them.

CHINAMAN GIVES PURSUIT.

This morning the girls again met the

Chinaman soon after they had left their homes. The Oriental became more volatile and became so persistent in his effort to talk to the girls that they turned aside in alarm. The school girls then started to run in the direction of the McKinley School, on Channing way, but, turning about, were terrified to find they were being pursued. Breathless the girls looked about for aid and saw nobody near ran into the Purcell home.
